

Russell E. Train
Education for Nature Program

FELLOWSHIP GUIDELINES

➤ MOZAMBIQUE

BUILDING CAPACITY IN MOZAMBIQUE

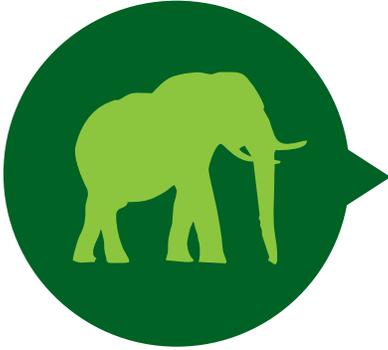

Mozambique is a country rich in biodiversity and natural resources. Increasing pressures and rapid economic growth make the country ripe for sustainable development. To conserve the habitats and species in places throughout the country, WWF Mozambique strategically focuses on thematic areas such as marine, forestry, wetlands, green economy, conservation funds, good governance, and climate change.

Applicants may apply for up to two years of funding and request up to \$30,000 per year.

FELLOWSHIP OVERVIEW

To build local capacity in Mozambique, WWF's Russell E. Train Education for Nature Program (EFN) is offering fellowships to future conservation leaders to enable them to pursue graduate-level study (master's and PhD) with the goal of advancing conservation in their home country. Applicants may apply for up to two years of funding and request up to \$30,000 per year.

APPLICATION DEADLINE

March 1, 2016

FOCUS AREAS

The following are eligible fields of study for the Mozambique fellowship.

- Marine and fisheries management (*including MPA planning and management, terrestrial to marine connectivity, rights-based fishery management*)
- Freshwater conservation (*including identification of fish species and freshwater ecology, integrated watershed management, hydrology, or freshwater management, environmental flows to sustain freshwater and estuarine ecosystems*)
- Species conservation (*including marine turtles, elephants, rhinos*)
- Rapid ecological assessments of marine and terrestrial topics
- Social science as related to sustainable economic development
- Community-based natural resource management of forests, reefs, estuaries, and other coastal or freshwater areas
- Climate change adaptation, particularly for marine and coastal habitats and communities
- Policy, law and/or economics
- Physical oceanography and hydrological modeling

ELIGIBILITY CRITERIA

- You must be a citizen and legal permanent resident of Mozambique.
- You must have at least two years of conservation-related work or research experience.
- You must have a demonstrated commitment to working in conservation in Mozambique.
- Your research or academic program must address one of the focus areas listed.
- You must be enrolled in, admitted to, or have applied to a master's or PhD program anywhere in the world.
- You must plan to begin your studies no later than January 2017.
- You must commit to working for at least two years in your home country after the completion of your degree.
- You must not have received a Train Fellowship or Scholarship in the past.
- You must contact EFN if you are a WWF employee, consultant, or previous EFN grant recipient.
- You must submit all required documents by the application deadline.

Applicants can access the online application at www.worldwildlife.org/efn. The application deadline is **March 1, 2016. Interested applicants are invited to visit www.worldwildlife.org/efn for more information or email EFN at efn@wwfus.org.**
